Web content of ora.gr, the Greek National Portal, which is published by O.A.E.T.O. Organisation for the Development of Human Resources (ora.gr) in collaboration with: Greetings to all friends and colleagues! We hope you will enjoy your visit to our portal. We have to note that ora.gr does not have any link with the Press Release. Today, our portal is available in several languages, including English, Greek, French, German, Spanish, and Italian. We will soon implement the new portal in the Serbian language. In the not too far future, we will add other languages, such as Portuguese, Russian, and Greek. We are glad to have developed our portal and hope that you will like it! Best regards Fransiska Rakoceva Chairman of the Board of Directors O.A.E.T.O. (Organization for the Development of Human Resources) Ph. +30 210 209022 | Fax: +30 210 209621 ora.gr About the ORA (Organisation for the Development of Human Resources) The ORA was founded on 26 February 1957, during a meeting organized by the then Director of Research and Testing, Prof. Georgios Olias. During the meeting, the main goal of the organization was to develop and maintain the instruments that would enable the testing of people working in the sector of human resources. The ORA is an independent organization that operates in the public interest and is governed by a board of directors chaired by a high-ranking administrator. The organization is organized into different scientific units, known as departments. Each department has its own responsibility and is under the authority of its own scientific manager, who is entrusted with the coordination of the respective work. The ORA is currently operating with five departments: 1. Research and Testing department 2. Regulation department 3. Training department 4. Human Resources Development department 5. Records department Every member of the ORA has to undergo training and undergo regular

Latest Forum Discussions Opera has announced that they will be releasing an official version of Opera Mini for iOS. This means that Opera Mini, which is currently only available for Android and Blackberry devices, will be available for iPhone and iPad. Opera Mini is the mobile browser that supports hardware acceleration and is designed for touchscreens. It was first released on Android phones in 2008 and is the company's answer to Google's Android Browser and Apple's Mobile Safari. More info on Opera Mini... Mobile devices are used on a daily basis for various activities. In fact, many of us use them as our main mode of communication, so it's not surprising that many of us are obsessed with having the fastest connection speed possible. Of course, it's impossible to improve the wireless signal without increasing the number of radio transmitters in the area. So what exactly can we do to improve the connection speed on our devices? There are several things you can do, and it... The Apple Watch is a smartwatch that can do much more than just tell you the time. It can even let you control your iPhone from your wrist. It's easy to see why Apple is selling the Apple Watch in such high numbers, but is it the best smartwatch you can buy? It has all of the features you'd expect from an Apple product, such as: Siri voice control. If you take the Apple Watch off of your wrist, you can speak to your phone's Siri just like you... The LG G Watch is a smartwatch that not only tells you the time, but also offers a myriad of other features. It has a large screen with excellent resolution, NFC (Near Field Communication) and Wi-Fi (and BT 4.0 if you happen to have an LG smartphone). The LG G Watch also has a heart rate monitor, as well as a GPS receiver and an accelerometer to keep track of your fitness, if that's your thing. It can also display your texts, email and... Google has recently released Google Maps for iPhone, which means that you can use Google

What's New In?
